The jury is still out on the exact reason behind the move, though we can rule out pressure from Nintendo, but one thing is for sure—Flappy Bird has fallen for good. Just make sure you don't delete it from your phone or tablet, or you'll be sorry. If you missed the chance at snagging Flappy Bird for your device, there's still hope for getting it, and you Android owners have it the easiest. The rest of you will have to settle for web-based Flappy Bird Flappy Bee Free hack and one of many mobile Flappy Bird Flappy Bee Free hack our there. Like I said Flappy Bee Free hack, it's pretty easy to get the full original, untouched, and unmodded Flappy Birds game for Android. All you need to do is install the original APK file, and even a newb can do it. Just like with everything else that's popular, Flappy Bird has loads of clones online for your computer. Kongregate and AGame both have exact clones of the game, using either the mouse or spacebar to flap along instead of touch. Just search for "Flappy Birds Online" and I'm sure you can find more. As well as exact clones, you can find slightly altered versions of the game, replacing the yellow bird with other items, such as the Reddit-popular Doge in Flappy Doge. Trying to capitalize on Flappy Bird's success, there are loads of imitators out there for you to try on your iPad, iPhone, or iPod touch. It's not an easy task to get the original game on your Flappy Bee Free hack device right now, unless you're jailbroken and trust a potentially malware-ridden. Just a few in the iOS App Store are Smarckle Flyer left screenshot and Fly Birdie right screenshot both of which use the same tap technique to fly through barriers, although both games are not nearly as difficult as Flappy Bird.
